Programming language

- C++
- Python
- C
- HTML, CSS, JavaScript

LANGUAGE

English

Nepali

PROFILE

Hi, my name is Dasarath Gyawali. I have completed +2 level education in Computer Science and am currently pursuing a Bachelor's degree in BSc CSIT, where I am in the 2nd semester. I am focused on building strong foundational and practical knowledge in areas such as programming, database systems, and software development as part of the CSIT curriculum. Alongside my academic studies, I have also taken extra courses in web development and digital marketing during the 1st and 2nd semesters to enhance my technical and professional skills. I have experience in problem-solving using programming languages such as C, C++, and Python, which has helped me strengthen my logical thinking and coding ability.

EXPERIENCE

Academic Projects

Relevant coursework, lab work, or group projects that demonstrate applied skills.
